

Dear Aviano MHS Parents and Students,

As we work together through this challenging time, please help us help your student to remain successful.

**Please remember:**

- All students must participate in order for teaching and learning to take place.
- Students should be in contact with each of their teachers.
- MHS will follow daily bell schedule when scheduling synchronous communication.

If you have questions please communicate with your student's teachers. This can be done through email or other methods teachers have published. GradeSpeed has contact information.

The dashboard continues to be updated with student's assignments: [bit.ly/avianomhs](http://bit.ly/avianomhs)

Every teacher will be available online to assist their students during their individual assigned period. Example: The first period teacher will be available during the first period time slot to respond to their first period students. Refer to your google email for instructions from each teacher on synchronous communication.

This is a very new way of teaching and learning. We are working hard to make this new method of learning successful. Our goal is to make every student successful as we find our way through this process. Please give us constructive feedback on how we are doing, such as what can we do to improve this experience? You can send your feedback to me directly at: [kenneth.harvey@dodea.edu](mailto:kenneth.harvey@dodea.edu)

If you are experiencing a problem, please contact the teacher first.  
You can contact teachers through GradeSpeed, or email: [firstname.lastname@dodea.edu](mailto:firstname.lastname@dodea.edu)

You may also see your student's grades, and assignments in GradeSpeed.

If you still need help, you may contact the principal or assistant principal:  
MHS Principal: [kenneth.harvey@dodea.edu](mailto:kenneth.harvey@dodea.edu)  
MHS Assistant Principal: [Mustapha.Kahlouch@DODEA.EDU](mailto:Mustapha.Kahlouch@DODEA.EDU)

***Thank you for all you are doing,***

Ken Harvey  
Principal  
Aviano Middle/High School
