European Travel Awareness

Several terrorist incidents involving vehicles and easily obtained weapons have occurred in Europe, including the United Kingdom, Germany, France, Spain, Finland, and Russia.

These incidents have occurred at mass gathering locations – such as large commercial, pedestrian, and tourist areas – to maximize casualties.

These events are stark reminders of terrorists' clear intent to execute attacks in Europe with little to no warning.

INDIVIDUAL PROTECTIVE MEASURES

- Provide travel plans and contact info to your chain of command
- Travel in a small group (avoid separation from the group)
- Identify existing obstacles (barriers, trees, light poles, etc.) and walk on the side that provides protection from a vehicle ramming attack
- Stay current with media coverage to remain aware of rapid changes in the security environment
- Blend in with the local population and do not act in a way to draw attention to yourself
- Avoid demonstrations and exercise caution in the vicinity of a large gathering
- Cooperate with security procedures and inspections
- Know local emergency numbers and potential safe areas
- Be cautious in high risk areas such as hotel lobbies, nightclubs, and other public places (i.e., sporting arenas) and identify exits upon arrival

SUSPICIOUS ACTIVITY REPORTING

- Remain aware and alert for anything suspicious or out of place
- Immediately report suspicious activity to **local** law enforcement officials

IDENTIFICATION

- Carry military ID and dependents' official passport & soggiorno with you at all times
- Carry tourist passport with you outside Italy
- Use state-issued ID or tourist passport during hotel check-in

SOCIAL MEDIA and OPSEC

- Do not post departure and arrival times or locations
- Do not "check-in" or post hotel location or geo-tagged photos until you leave the area
- Be cautious of your conversations in public areas
- Avoid revealing your DOD affiliation

LARGE CONCENTRATIONS OF PEOPLE PRESENT LUCRATIVE AND ATTRACTIVE TARGETS

EUCOM Requirement for ALL PERSONNEL
