DOOR TO DOOR SYSTEM SOME RULES TO BE FOLLOWED

Place containers and bags out of your residence on public street and in a visible place, the evening before the scheduled day of collection as indicated in the refuse calendar (after 0800 pm).

Take empty containers to your home after GEA operators have collected the waste.

Do not leave or abandon waste outside the containers.

Do not confuse your trash containers with those of your neighbors. It is everyone's responsibility to take care of their assigned trash containers.

The containers assigned to you needs to be used with the diligence of a good family man, cleaning them regularly.

App MyGEA will be available soon!

WASTE SEPARATION
COLLECTION BECOMES SMART!

FROM 1 OCTOBER 2020

GO AHEAD FOR A GOOD
QUALITY OF WASTE
COLLECTION

1 OCTOBER 2020: START THE NEW WASTE COLLECTION SYSTEM/SERVICE

"DOOR TO DOOR" COLLECTION

WASTE	How to dispose of the waste	YES
 PAPER AND CARDBOARD 	Inside the blue container (paper must be disposed of loose and without plastic bags) Pickup collection: every two weeks.	Newspapers, books, notebooks, photocopies, clean cardboard packaging, "tetrapack type" - beverage carton (e.g. milk, rinsing before to place it inside the blue container)
 PLASTIC AND ALUMINUM PACKAGING 	In yellow clear bags (do not use other bags). Pickup collection: every two weeks	Plastic bottles and packaging, bags, clean polystyrene, plastic cups and plates, clothes hangers, tinplate boxes, aluminum/metal containers, cans. (must be rinsed and free of residue).
 NON-RECYCLABLE DRY WASTE 	Waste must be placed inside the gray container using any bag. Pickup collection: every two weeks	Dirty paper, diapers, sanitary absorbents and tampons, cigarette butts, ceramics, plastic objects (e.g. hard plastic, etc), plastic cutlery, glass and crystal glasses, non-compostable animal litters
 GARDEN WASTE AND CLIPPINGS 	Waste must be placed inside the green container (opening with the provided key). Waste must be placed without bags. Attention: subscription service is on request (with the provided container), also for those who practice home composting. Garden waste can be disposed of to the ecological platform and it is free of charge	Grass clippings, cut flowers and domestic plants, garden residues, leaves, branches, pruning trees and hedges.

Containers and bags, once full, must be placed out of your houses, on the public street, in accordance with the refuse calendar. Refuse Calendar will be delivered with trash containers, bags and keys.

PUBLIC STREET COLLECTION

WASTE	How to dispose of the waste	YES
 ORGANIC WASTE 	Inside the Brown Public Street Container (opening with the provided key). Only the use of biodegradable bags is allowed.	Kitchen scraps, leftovers, spoiled food, coffee grounds, tea filters, small prunings, greasy paper towels, cold fireplaces ashes, small bones and fish bones etc.
 GLASS 	Inside the Green Public Street Container (opening with the provided key). Glass must be disposed of loose and without bags.	Bottiglie in vetro, vasetti e barattoli. Glass bottles, containers and glass jars (glass must be disposed of without caps and rinsed)

The provided key opens the glass and organic waste containers placed throughout the municipal territory

OTHER WASTE

 LARGE DURABLE GOODS ELECTRICAL AND ELECTRONIC HOUSEHOLD APPLIANCES	Waste can be brought, free of charge, to the ecological platform, or in case you are unable to bring the waste to the ecological platform, at cost home pickup service can be requested contacting 31 CES/CEI -Community Recycling Liaison at 632-2511-giovanna.coppola.it@us.af.mil;
 EXHAUSTES OIL	Dispose of to the ecological platform or inside the appropriated public street containers.

Other types of waste not listed above can be verified on the GEA website www.gea-pn.it/comuni/servizi-san-quirino; or contacting 31 CES/CEI Community Recycling Liaison - Giovanna at DSN 632-2511-email: giovanna.coppola.it@us.af.mil
 Ecological Platform is located in the municipality of San Quirino, Via San Rocco.

MONITORING OF WASTE DISPOSAL

Gea's operators will carry out random inspections on the waste placed outside the houses and if the waste placed inside the bags and containers does not comply with the type of waste indicated, the operators, in support of users during the beginning of the service, will leave a notice on the trash bags/containers, with the errors made.
