## REFUSE SEPARATION COLLECTION PROCEDURES

Refuse separation collection system will change starting 06 October 2018  
New procedures will be posted on the Aviano AB recycling website before  
6 October 2018.

Glass

Wet Waste

Dry Waste

Refuse separation collection brochure

## WET WASTE

## WET WASTE

### YES

Leftover food, spoiled food (without packaging), old bread, flour, egg shells, shellfishes, small bones, fruit and vegetables scraps, tea-chamomile and coffee filters, greased (kitchen) paper towels, faded flowers and house plants (small quantities), potting soil, without vase, small quantities of stubbed out ashes from untreated wood, animal feathers, small pet waste and biodegradable "cat litters"

### NO

All recyclable waste, diapers, sanitary napkins, rags (even if wet), plastic bags, hazardous waste, vegetable and mineral oil and synthetic litter for pets.

wet waste must dispose of

Green/Red public street container  
Containers are labeled "UMIDO"

### do you know that...

Almost half of the waste daily produced by a family consists in organic waste that if it properly separated from other waste and sent to composting it can become an excellent soil for vegetable and flower gardens.

## WET WASTE

Place wet waste in the public street green/red container

# NON-RECYCLABLE DRY WASTE

## YES

Plastic plates, cups and plastic cutlery disposable free of residual organic, diapers, napkins and sanitary towels, cigarettes butts, pottery shards, toothbrushes, shavers, pantyhose/tights, light bulbs (non fluorescent-dispose of to the ecological platform), pens, markers and adhesive tape, rubber objects and rubber tubes, dirty rags, sponge and cork, cosmetics, band aids, cotton pads and toothpaste tubes, video and music tapes, CDs, small quantity of non-recyclable plastic toys without electronic components, carbon paper, grease-proof paper, plasticized paper, backing paper, wallpaper and sand paper, vacuum cleaner bags and dust.

## NO

Carton juices/milks, hazardous waste, home debris, garden waste (mown grass, prunings, cut flower, branches and clippings).

Disposing of recyclable waste would cause a valuable waste of resources and it would create damage to environment as well as increasing the waste tax of each user.

## Dry waste must be disposed of

in yellow plastic bags supplied by the Community

- **S. QUIRINO**  
every Wednesday
- **SAN FOCA,  
SEDRANO  
AND VILLOTTE:**  
every Saturday

Waste must be disposed of in closed bags and must be placed in a visible location on the public street in front of your residence only the evening before the scheduled day of collection.

## do you know that...

Non-recyclable dry waste is brought to treatment plants to be worked and after a particular working process waste becomes fuel. It is used to produce electricity and heat in dedicated plants.

Non-Recyclable dry waste

# PLASTIC

## YES

Water/soda bottles (plastic bottles must be crashed and capped to reduce volume before placing into the container), detergent containers (without residue), packaging (for eggs and etc.), plastic bags, emptied food plastic containers (i.e. ice cream and yogurt containers), nylon and cellophane packaging, strapping bands (plastic/steel), boxes and bags for clothing, empty food bags (i.e. , pasta, rice, frozen food, sweets and etc.), polystyrene food containers/ packaging.

Plastic must be disposed of

Multimaterial  
Public Street  
Container

## NO

Large hard plastic goods including toys, rubber objects and irrigation pipes, plastic plates and cups disposable, dirty and/or full plastic containers.

## do you know that...

A recycled detergent bottle can be used in construction as a good insulator. A plastic bottle ("PET") can become a fleece sweater and a shopping bag can be turned into bags for garbage.

Plastic and packaging

# PAPER AND CARDBOARD

## YES

Clean paper and cardboard packaging, small cardboard (folded), newspapers, books magazines, booklets, exercise books, detergents and food packaging (i.e.: cookies and pasta boxes, flour and sugar bags, etc.), emptied and rinsed cartons for milk, juice, wine and etc., pizza's cartons and clean paper towels

Paper and cardboard must be disposed of

Multimaterial public street container

## NO

Carbon paper, soiled paper, wax paper, dirty paper, sand paper, vellum paper and wallpaper (non-recyclable dry waste).

## do you know that...

Every year about 400 million tons of wood are needed to produce the whole paper commonly used.

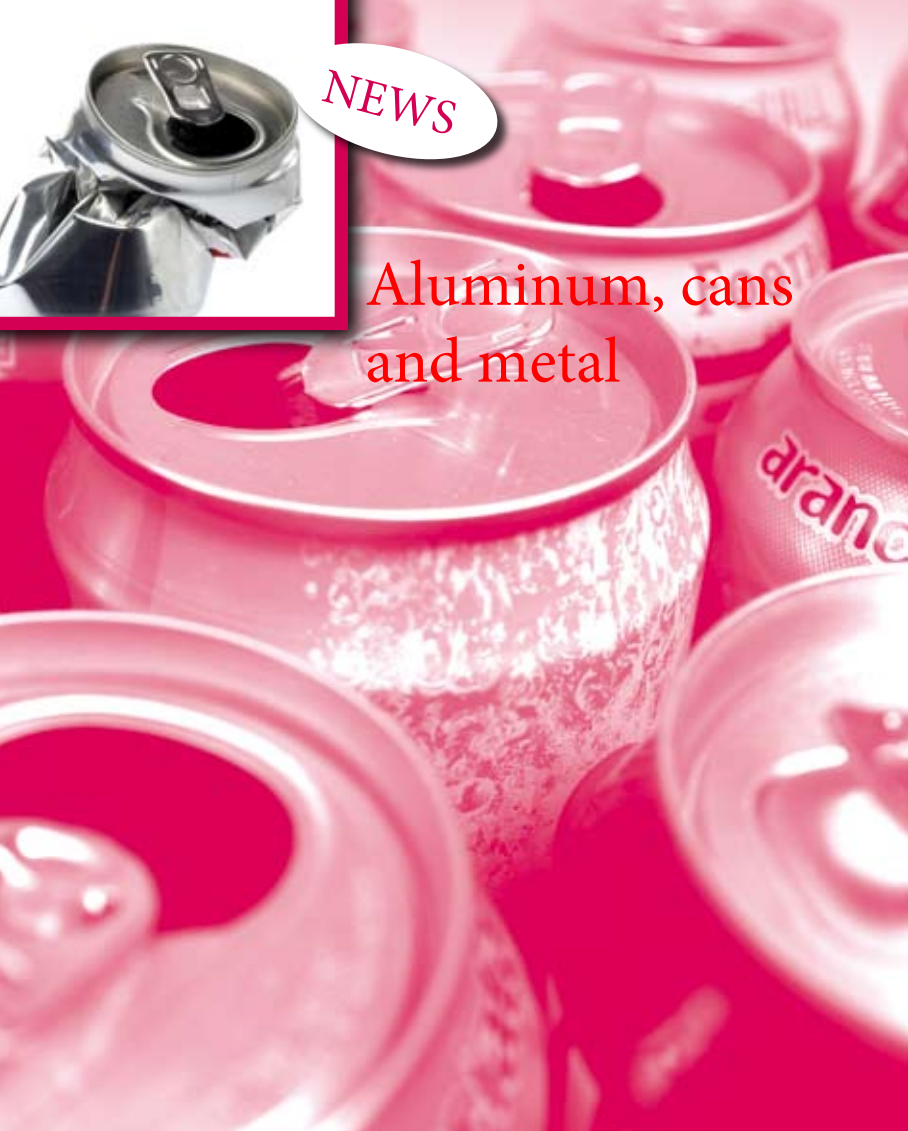

If you buy notebooks made of recycled paper you should properly recycle them after use. Making this small action you will avoid to produce new paper contributing to save other trees.

Do it! and we will have a greener and cleaner world.

Paper and Cardboard

NEWS

## Aluminum, cans and metal

### YES

Aluminum cans/food containers, emptied and rinsed metal containers (i.e.: canned tuna fish, tomatoes and etc), metal caps and lids, aluminum foil and containers (clean)

Aluminum, cans and metal must be disposed of

Multimaterial Public Street Container

### NO

Dirty and/or full can container, plastic bags.

### do you know that...

Recycling Aluminum/Metal will save both raw materials and energy: just think that with only 37 cans can be produced a new Italian coffee maker (Caffettiera), with 150 cans we can build the frame of a city bike, while with 640 cans can be made a new rim for car!

Aluminum, cans and metal

# GLASS

## YES

Rinsed glass bottles, glass jars, glasses, mixed crushed glass, crystal.

## NO

Light bulbs (any type), large glass items (big wine damigianes, mirrors, large glass sheets), earthenware, pieces of pottery, porcelain and ceramic ware.

Glass must be disposed of

Public street container

## do you know that...

Glass is a clean material because it is not produced with polluting substances and for this reason it can be easily reused and recycled.

GLASS

# GARDEN WASTE

## YES

Garden waste: mown grass, cut flowers, clipping and branches, prunings (trees and hedges), plant residues from the cleaning of the garden.

garden waste must be disposed of

at the Ecological Platform door to door pick-up service is also performed every Thursday

- **grass:** in plastic bags
- **branches and clippings:** tied in small bundles

sono disponibili,  
su richiesta, presso il  
Comune il **COMPOSTER**  
in **COMODATO**  
**D'USO GRATUITO**

## NO

Nylon, cellophane bags, plastic pots and pottery, stones and soil.

do you know that...

Twigs/branches have an important role in the composting process: they contribute to balance the emission of carbon and nitrogen allowing proper ventilation of the waste. Who wants to perform the home composting must remember to shred the twigs/branches that must be used for this type of working process. Twigs/branches are essential for obtaining a high-quality compost!

Garden waste (branches and clippings)

# DISCARDED CLOTHES

## YES

Discarded clothes, matched shoes, hats, sweaters, curtains. (in good condition and clean)

## NO

Unusable clothes and underwear.

discarded clothes must be disposed of

Yellow Public Street Container

do you know that... |

Clothes, shoes, and etc. still in good condition, is donated to families in need or to developing Countries. Material that is no longer usable is recycled for obtaining raw materials such as regenerated wool.

# EXPIRED BATTERIES AND MEDICINES (without packaging)

## YES

Batteries for the remote unit, Small round batteries/button cells or accumulators used for special devices such as hearing aids, watches, small portable equipment and calculator.

Medication ampoules, disinfectants, syrups, expired medicines/tablets, unguents (without packaging).

**Batteries and Expired Medicines must be disposed of**

Ecological Platform

## NO

Car Batteries.

Syringes and sharp items, mercury thermometers.

### do you know that...

Batteries are harmful and hazardous and must be separately collected to prevent any environmental pollution : i.e.: mercury and cadmium are toxic substances for humans even if ingested or inhaled in small quantities.

Batteries, once collected, are subject to special treatments to become inert waste

Expired medicines must be collected separately and in appropriate containers, because once used, they become hazardous waste.

Expired batteries and medicines

# Ecological Platform

## large durable goods

### What is it?

Ecological Platform is monitored by authorized personnel who will verify the nature of the waste and they authorize users to dispose of their waste. Personnel are also authorized to check the user ID Cards and only for American residents, they are authorized to also check the first page of their lease contract as a prove that the american citizens live at San Quirino Community!

### Where is located?

via San Rocco, 59

### Hours of Operations:

Wednesday: 14.30/16.30

Saturday: 8.30/12.00

### What you can dispose of:

- large durable goods: mattresses, furniture;
- garden waste: mown grass, prunings , cut flower, branches and clippings;
- iron and scrap metals: metal nets, iron tools, bicycles, metal cans and drums;
- old furniture and wood: wooden boxes, tables, old chairs, wooden pallets;
- vegetable oil: cooking oil, frying oil and oil for preserving foods (i.e. canned tuna fish oil and etc.);
- mineral oil;
- large durable goods: household appliances, refrigerators, freezers, air conditioners, electronic goods, fluorescent light bulbs

**Wet  
waste**

Green/Red public  
street container

**Non-  
recyclable  
waste**

In the yellow bag

- **SAN QUIRINO**  
every Wednesday
- **SAN FOCA,  
SEDRANO AND  
VILLOTTE**  
every Saturday

yellow bag must be placed in a visible  
location on the public street in front of  
your residence only the evening before  
the scheduled day of collection

and  
Medicines**

Ecological Platform

## Ecological Platform

### What is it?

Ecological Platform is monitored by personnel responsible for checking the waste and as well as to authorize users to dispose of their waste.

An identification document will be required in order to verify the official residence address.

For American residents: Employees, at the Ecological Platform, are authorized to check the ID Card and the copy of the lease contract (first page of the lease contract) that proves that the American users live in the Community!

### Where is located?

It is located at San Quirino, Via San Rocco, 59

### Hours of Operation:

Wednesday: 14.30/16.30

Saturday: 08.30/12.00

### What you can dispose of:

- large durable goods: mattresses and furniture;
- garden waste: clippings and branches: mown grass, cut flowers, prunings.
- iron and scrap metals: metal nets, iron tools and objects, bicycles, cans and metal drums;
- old furniture and wood: wooden boxes, tables, old chairs, pallets, beds/benches and etc.
- vegetable oil: used cooking and frying oils or for preserving foods (i.e. canned tuna fish oil and etc.)  
\*mineral oil
- large durable goods: household appliances, refrigerators, freezers, air conditioners, electronic goods, fluorescent bulbs

La buona riuscita del servizio di raccolta differenziata dipende dall'impegno e dalla partecipazione di tutti.

Recuperare gran parte dei rifiuti raccogliendoli in modo differenziato:

## è utile per l'Ambiente

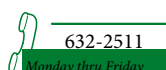

- perchè ritardiamo il più possibile l'apertura di una nuova discarica sul nostro territorio.
- perchè riduciamo l'emissione dei gas serra.

## è utile per tutti Noi

- perchè riciclare i rifiuti costa meno che smaltirli in discarica.
- per preservare la qualità della nostra vita e quella delle future generazioni.

“Dobbiamo imparare  
a restituire alla natura  
la ricchezza che le  
chiediamo in prestito.”

POC: Ms. Giovanna Coppola, Community Recycling Liaison  
31 CES/CEI, Civil Engineer Squadron  
Area C-CE Compound, Bldg #407, ground floor

08.00/Noon and 13.30/17.00

**CITY OF SAN QUIRINO**

## **IMPORTANT NOTICE**

**GARDEN WASTE DOOR TO DOOR PICK-UP**

**(GRASS-LEAVES AND BRANCHES)**

Garden Waste (grass-leaves-branches) must be placed in closed trash bags and in a visible location on the public street in front of your residence only the evening before the scheduled day of collection:

**MONDAY 14 JANUARY 2019**

**MONDAY 4 - 18 FEBRUARY 2019**

**FROM MARCH TO JUNE 2019**

**EVERY MONDAY**

Abandonment of waste in other areas and not on scheduled days of collection can be fined from €25.00 to €620.00, in addition it will be requested to remove and dispose of the waste.

Garden Waste can also be disposed of at the Ecological Platform every Wednesday from 14:30 to 16:30 and Saturdays from 08:30 to 12:00.

Ecological Platform is located at San Quirino, Via San Rocco #59.
